## wheel spacers

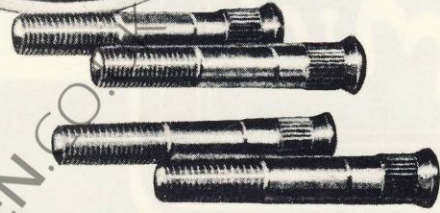

Adaptor and replacement stud spacers are made from pressure die cast aluminium alloy, and studs are manufactured from high tensile steel.

Replacement stud spacers are available in sizes 1/2", 5/8", 7/8", 1", 1.1/8", for most modern British cars.

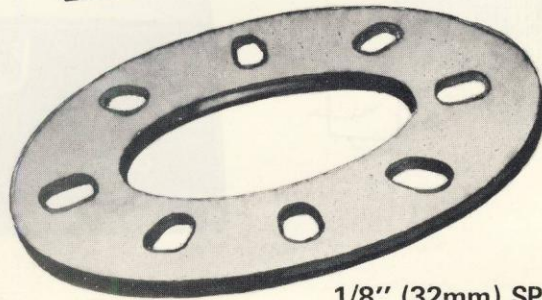

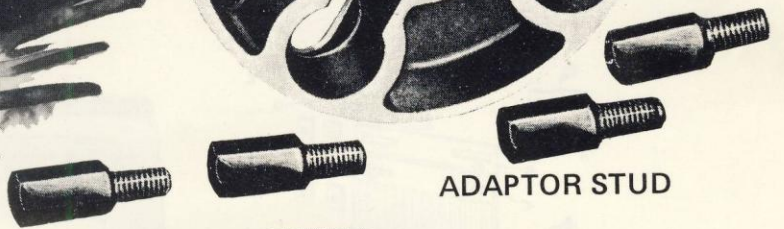

Adaptor studs available in 1.1/4" size only for most British and popular foreign cars. Four stud fixing only.

## mud flaps

Arden Universal Mud Flaps designed to cover the largest possible variation of Body Shapes

\*The fitting of the Mud Flap to the outside of the Car Body is by a unique Clamp which removes the necessity to drill holes in the outside of the Car. The flap is of Hard Rubber with pattern ribs and provision for Car Names or Reflector Strip. Supplied in pairs in Display Boxes with fittings. Also available—Mini Mud Flap sets packed in plastic.
